THRU : Chief, Economic Research Area

Chief, Industrial Division, ORR

Hungarian Light Industry

1. Project 38.910 is an outgrowth in the work completed by the I/CI Branch in connection with the Hungarian NIS. However, the attached project considerably amplifies the original NIS contribution.

2. The present paper has gone through at least three drafts and brings together all of the relevant information presently available on the light industries of Hungary. I would urge publication as a PR. There is no need to give publication other than standard priority.
